

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

1. (previously presented) A selling price information mediation service method for mediating and supplying selling price information, which includes selling prices of a commodity in respective stores and information about the respective stores, over a network, the method comprising:

receiving, from an information requester terminal, an information request that requests selling price information about a commodity, and communicating the information request directly to a plurality of information provider terminals;

collecting selling price information which matches the information request from at least one of said plurality of information provider terminals in response to the information request, and generating collected selling price information that matches the information request;

supplying the collected selling price information to said information requester terminal, and charging said information requester terminal a prescribed information supply fee and mediation commission; and

providing payment of a prescribed informer fee to the at least one of said plurality of information provider terminals that provided the pieces of selling price information that match the information request.

2. (currently amended): A selling price information mediation service method according to claim 1, wherein a selling price information mediating service employs a membership system, and said method further comprises:

registering an information requester at said information requester terminal after receiving registration information from said information requester and registering information providers at said information provider terminals as members after receiving registration information from both said information requester and said information providers; and

identifying ~~a person~~ an information requester or an information provider who has caused a problem by distributing erroneous information, upon occurrence of the problem.

3. (currently amended): A selling price information mediation service method according to claim 2, further comprising keeping a history of ~~an~~ the information provider who caused a problem by distributing erroneous information and disclosing the history to said information requester terminal.

4. (previously presented): A selling price information mediation service method according to claim 1, wherein the information request includes information of a selling price limit of the commodity, and further comprising supplying said information requester terminal with only pieces of selling price information with selling prices each of which is at most the selling price limit.

5. (previously presented): A selling price information mediation service method according to claim 1, wherein the information request includes information indicating a restrictive area where an information requester at said information requester terminal can buy the commodity, and further comprising supplying said information requester terminal with only pieces of selling price information of stores located in the restrictive area.

6. (currently amended): A selling price information mediation service method according to claim 1, further comprising supplying said information requester terminal with ~~part a portion~~ of the collected selling price information, ~~that excludes~~ excluding information about stores, before supplying the remaining collected selling price information to said information requester terminal, wherein the remaining collected selling price information is supplied after the charging of said prescribed information supply fee.

7. (currently amended): A selling price information mediation service method according to claim 1, further comprising providing payment of said prescribed informer fee to a portion of said at least one information provider terminals that provided ~~pieces of~~ selling price information having a lowest selling price and prices close to it after actually supplied to said information requester terminal ~~selling- after supplying~~ the collected selling price information to said information requester terminal.

8. (previously presented): A system for mediating and providing selling price information over a network, the system comprising:

at least one information requester terminal which requests selling price information;

a plurality of information provider terminals, each of which provide selling price information for a retailer; and

a management server which mediates selling price information;

wherein the mediating selling price information comprises:

receiving an information request that requests selling price information about a commodity from at least one information requester terminal, and communicating the information request directly to a plurality of information provider terminals;

collecting pieces of selling price information which match the information request from at least one of said plurality of information provider terminals in response to the information request, and generating collected selling price information that matches the information request;

supplying the collected selling price information to said information requester terminal, and charging said information requester terminal a prescribed information supply fee and mediation commission; and

providing payment of a prescribed informer fee to the at least one of said plurality of information provider terminals that provided the pieces of selling price information that match the information request.

9. (currently amended): A system according to claim 8, wherein said management server comprises a membership system, and said membership system comprises:

registering an information requester at said information requester terminal after receiving registration information from said information requester and registering information providers at said information provider terminals as members after receiving registration information from ~~both said information requester and said information providers~~; and

identifying an information requester or an information provider ~~a person~~ who has caused a problem by distributing erroneous information, upon occurrence of the problem.

10. (currently amended): A system according to claim 9, wherein said membership system keeps a history of ~~an~~ the information provider who caused a problem by distributing erroneous information and discloses the history to said information requester terminal.

11. (previously presented): A system according to claim 8, wherein the information request includes information of a selling price limit of the commodity, and the management

server supplies said information requester terminal with only pieces of selling price information with selling prices each of that is at most the selling price limit.

12. (previously presented): A system according to claim 8, wherein the information request includes information indicating a restrictive area where an information requester at said information requester terminal can buy the commodity, and said management server supplies said information requester terminal with only pieces of selling price information of stores located in the restrictive area.

13. (currently amended): A system according to claim 8, wherein said management server supplies said information requester terminal with ~~part a portion~~ of the collected selling price information, ~~that excludes~~ excluding information about stores, before supplying the remaining collected selling price information to said information requester terminal, wherein the remaining collected selling price information is supplied after the charging of said prescribed information supply fee.

14. (currently amended): A system according to claim 8, wherein said management server performs providing payment of said prescribed informer fee to a portion of said at least one information provider terminals that provided ~~pieces of~~ selling price information ~~having a~~

~~lowest selling price and prices close to it~~actually supplied to said information requester terminal
after selling the collected selling price information to said information requester terminal.

15. (previously presented): A management server for mediating selling price information over a network, the management server comprising:

a receiving unit which receives an information request which requests selling price information about a commodity from at least one information requester terminal,

a communication unit which communicates the information request directly to a plurality of information provider terminals;

a collecting unit which collects pieces of selling price information matching the information request from at least one of said plurality of information provider terminals, and generates collected selling price information that matches the information request;

a supplying unit which supplies the collected selling price information to said information requester terminal and charges said information requester terminal a prescribed information supply fee and mediation commission; and

a processing unit which provides payment of a prescribed informer fee to the at least one of said plurality of information provider terminals that provided the pieces of selling price information that match the information request.

16. (previously presented): A selling price information mediation service method according to claim 2, wherein said registration information comprises at least one of a registration identification and a password.

17. (previously presented): A system according to claim 9, wherein said registration information comprises at least one of a registration identification and a password.
